NEMD ONLY A LEADER.

"I think that all we in St. Louis need to launch such a movement is a lender. It is a lendable move and should prove popular with the corporations which are the virilins of persons who would mulet them without just cause of legal action or against these who fraudulently prosecute such actions."

The Casualty Company of America was the host at the New York meeting large week and he guests were invited to listen to an illustrated lecture by Theodore Waters, who has made calamistic studies in several of the larger cities on the subject of bugus accidents and how they are generated. President Armstrong, in introducing Mr. Waters, said:

"A tather startling exposition of a form of graft, not new but ever growing, is responsible for our being here to-night. Most of you who have had anything to do with casualties know that there is a more or less well-organized combination.

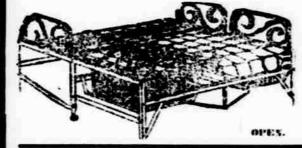

HOUSEHOLD FURNITURE

Will be perfectly satisfactory to us! We recognize the fact that every man's income and circumstances are different! The terms that would suit one man would be burdensome to another. That's why we say-arrange your own terms! Select such goods as you may need -at The Household-at the lowest prices named by any house in St. Louis-tell the salesman to charge it-and then arrange the small weekly or monthly payments to suit yourself.

We are fast building up a reputation as the most liberal credit house in St. Louis and we invite you to share in the many advantages we are offering our patrons.

ONLY \$1.00 CASH **BED DAVENPORTS**

Exactly like cut-balance on easy little payments of 50c a week.

This is, without exception, the best, strongest and most easily operated Iron Bed Davenport on the market. of individuals banded together to get from doing so by the lawyers, who anticinsurance companies and other corporations large or small sums of money for wearily through court after court.

of individuals banded together to get from insurance companies and other corporations large or small sums of money for simulated or exaggerated injuries.

"The time has come, it seems to me, for concerted action on the part of those interested in promptly and adequately settling honest claims for accidents and damage. For years the American Bankers' Association has, through a well-organized system, pursued forgers, check-tabers and bank-breakers to the ends of the earth and to their deathbods. If concerns the man who rents but does not own his own house.

The lecturer. Theodore Waters, is the man whose adventures among the bergars of New York were published resently in a magazine. For the last six months he has been studying the grafters who make a living by getting burt. He found evidence to prove that thousands of persons make a good inling of it by precenting to suffer injuries and claiming damages therefor. Their efforts were directed at first against the municipalities, railways and insurance commanies, but the graft has nad so well that private business men are now being attacked. ARMY OF GRAFTERS

The people who actually or by pretence. suffer the injuries are but the privates in the great army of grafters. Its communi-ing officers are the shyster lawyers who employ ambulance chosers for heutenints and, with the help of doctors without the code, engage in what is practically an organized business of mulcting reputable business men.

cro Association has, through a well-organized system, pursued forgers, check raisers and bank-breakers to the ends of the earth and to their deathhols. If consulting insurance companies are to protect the rights of honest policy holders, if corporations are to settle promptly with their persons honestly entitled to damages, a similar policy must be pursued the insurance eriminal must be prosecuted as promptly and unrelentingly as the bank rascal.

OUTLINES PLANS.

I desire to suggest the advisability of an organization along the lines of the American Bankers' Association, with a central bureau for the collection of statistics, investigation of franti and the prosecution of violators of the law and the punishment of whyster lawyers and mercenary physicians.

This is a movement in which the insurance companies, while taking the lead, desire the active co-operation of all corporations and individuals who are now the prey of these damage-claim pitrate. A strong, vigorous central body, supported by reasonable annual long, will put the fear of the law into the heart of every trailingers. Bogus claimant, ambulance of years on the law into the heart of every mallingers, bogus claimant, ambulance of the were published resently in a massizine. For the last six menths be chasses, shryster lawyer and mercenary physicians.

The lecturer. Theodore Waters, is the many whose adventures among the beganes of New York were published resently in a massizine. For the last six menths he chasses should be a proposed to the present and the proposed to the premium, which seems an increasing charge upon the my sured, and which reacts upon the my sured in the present time. The people

Thousands of men and women in a like provided departed, and thereby less her case.

MODERN SCHEMERS

Mr. Waiter mays they do it differently moundars. He attended the trial of a young woman in Chicago and listened to the testimony of detectives who peeced under her hotel room door and saw the girl, who was supposed to be deaf and paralized, waiting around her room, and even as for unit paralyzed, waiting around her room, and even self shought into court upon a stretcher gut up from her bed a couple of weeks after her case was settled and laid the temerity to invite the directors of the relives owns settled and laid the temerity to invite the directors of the relivesy company is artend a reception which give held in selebration of her miraculius recovery. He told also of a circular acrobat who would allow himself to be builted about by the care. After he had been conveyed to a furnished room hired for the purpose a friend of his would be bandaged and go to bed so as to give the aerobat lessure to go out and be humped areain. Thus the circus man was exalled to rim a graff syndicate, keeping law or three men in hed all these times, while he settled with the companies.

Mr. Waters thinks the profession of getting hurt will have an increasing following unless some concerted effort is made to check it. Continuing he said:

"Thus must be effected through some combination of interests made between the various large business interests of the control of the various large business interests of the control of the various large business in the control of

put in operation throughout the United States it would not be very long before the profession of getting hurt' would be a thing of the post.

Lost Children in Closet.

REPUBLIC SPECIAL.

Boston, June 24.-After having kept the entire Police Department of Cheisea and many interested citizens busy hunting for them for many hours, four children-Michael Corey, 6 years old; Antoni Balosky, 4; Helen Broginsky, 6. Bronick Slivensky, 6 years old-were found locked in a small closet in the vacant hous No. 9 Eldridge place, a few doors from their home. They said they were playing in the house, and went into the closet to hide, closing the door after them.

Let go or die. That's the alternative of the shipwrecked man with the money bags. A great many people have a like hags. A great many people have a like alternative before them. Business men come to a point where the doctor tells them that they must 'let go or die.' Probably he advised a sea voyage or mountain air. There's an obstinate cough that won't be shaken off. The lungs are weak and perhaps bleeding. There is emantation and other symptoms of disease, which if unskilfully or improperly treated terminate in consumption.

Thousands of men and women in a like condition have found complete healing by the use of Dr. Pierce's Golden Medical Discovery.
